

Sky Ox Introduces Line Extension of its Portable Oxygen Systems

For the past several years, pilots and others visiting our Website have been requesting that we fill a void in our portable oxygen systems line. After reviewing the recommendation, we agree. Now, we are proud to introduce the new aluminum system known as:

SK 12-22

This new system fits near the middle of our product line with an oxygen capacity of 22 cubic feet. See further specs in the table below.

Now A Twenty Two Cubic Foot Oxygen System

The SK 12-22 Twenty Two Cubic Foot is a complete portable oxygen system includes a pressurized cylinder with oxymizer cannulas, lines, a flow indicator, quick disconnects, and a spare mask. Optional Cannula Case available for a discount. A padded carrying case with shoulder harness highly recommended by pilots using one.

- Special Notes:**
- * Follow the Use and Care Guide provided with the unit.
 - * Keep out of reach of children.
 - * Never use around an open flame or smokers.
 - * Keep free of all oils, and oil base substance.
 - * Contact Sky Ox with any questions on the use and care of this unit.

Model Number	Oxymizer Cannula Duration Hours at 15,000 Ft.	Cylinder Capacity	Approx. Size (H x D)	Approx. Weight
